## Tsunesaburo Makiguchi (1871-1944): Educational Philosophy in Context

This edited volume focuses on the life and work of Makiguchi Tsunesaburo (1871-1944), a Japanese elementary schoolteacher, principal, educational philosopher, author, activist, and Buddhist war resister who has emerged as an important figure in international education. Makiguchi is the progenitor of value-creating (soka) pedagogy that informs practice in the Soka schools network, which includes two universities (in Japan and the U.S.), a women's college (Japan), two secondary schools (Japan), three elementary schools (Brazil and Japan), and six Kindergartens (Brazil, Hong Kong, Japan, Korea, Malaysia, and Singapore), as well as one of Japan's largest correspondence education programs. In addition, thousands of educators worldwide incorporate Makiguchi's ideas in their own curriculum and instruction, and Brazil has instituted the Makiguchi in Action Project, which has provided literacy training and teacher development for nearly a million people. This edited volume is the first in the Anglophone literature to theoretically and empirically examine the nature and global application of Makiguchi's influential educational ideas.

The book was originally published as a special issue of *American Educational Studies*.
