A thousand and one ideas for making beautiful polymer clay millefiori. In Venetian glassmaking, slender rods of molten glass are shaped, then cut to reveal amazingly detailed patterns: flowers, geometric shapes, dancing colors. These slices are called millefiori, “thousand flowers,” because they form a carpet of flowers when placed side by side. Now celebrity author Donna Kato shows crafters exactly how to re-create these intricate, fascinating designs in polymer clay. *The Art of Polymer Clay Millefiori Techniques* reveals the entire process: how to work with the polymer clay, the basics of planning and creating a cane, and using color effectively. Dozens of canes, from simple to simply stunning, are included, and everything is clearly explained and illustrated with full-color photos, the Donna Kato way. Throughout the book, examples of stunning work by such millefiori artists as Kathy Amt, Pier Voulkos, and Kathleen Dustin provide inspiration. There must be a thousand ways to make beautiful millefiori . . . explore them all in *The Art of Polymer Clay Millefiori Techniques*.
