The Nexus of Economics, Security, and International Relations in East Asia (Stanford Security Studies)

The Nexus of Economics, Security, and International Relations in East Asia (Stanford Security Studies)

While, over the last 30 years, the global economy's center of gravity has shifted to East Asia, the region has remained surprisingly free of interstate military conflict. Yet this era of peace and growth has been punctuated by periodic reminders of enduring security problems in the region—from China's military modernization, to unresolved territorial disputes, to persistent tensions on the Korean peninsula.

This volume is one of the first to treat these issues of economics and security as interconnected rather than separate. Its authors—leading scholars from the U.S. and China—shed new light on this important nexus by applying insights from a rich variety of approaches to explore and explain the dynamics of a region whose importance for students of both international political economy and international security has grown dramatically. They show that both economic and security 'fundamentals' matter if one is to understand the reasons for, and evaluate the durability of, East Asia's recent peace and prosperity.

Brenda Moulton:

Your reading 6th sense will not betray you, why because this The Nexus of Economics, Security, and International Relations in East Asia (Stanford Security Studies) publication written by well-known writer who knows well how to make book that may be understand by anyone who else read the book. Written within good manner for you, still dripping wet every ideas and creating skill only for eliminate your current hunger then you still question The Nexus of Economics, Security, and International Relations in East Asia (Stanford Security Studies) as good book but not only by the cover but also from the content. This is one guide that can break don't assess book by its deal with, so do you still needing one more sixth sense to pick that!?! Oh come on your examining sixth sense already told you so why you have to listening to an additional sixth sense.

Nancy Landry:

As a college student exactly feel bored to be able to reading. If their teacher expected them to go to the library or make summary for some reserve, they are complained. Just little students that has reading's internal

or real their hobby. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading really. Any students feel that reading is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this *The Nexus of Economics, Security, and International Relations in East Asia* (Stanford Security Studies) can make you truly feel more interested to read.
