Home Networking Demystified Larry Long

The fast and easy way to build a home network

Learn to set up your own wired or wireless home network quickly and easily. In this step-by-step guide, Dr. Larry Long offers clear explanations of networking technologies and describes current and future home networking applications. You'll learn to design your network, select the components, install any necessary wiring, connect to the Internet, connect PCs to the network, set up security measures, and troubleshoot your network. Once you get your home network up and running, you'll be able take full advantage of everything it has to offer, such as shared resources including Internet access, files, and printers. Integrate digital home entertainment, play multiplayer games, and set up a virtual private network (VPN), voice over IP telephones, and other home networking applications. You'll also get details on how home networking can complement telework. Filled with clear instructions and helpful illustrations and photos, *Home Networking Demystified* is your shortcut to setting up a complete home network and enjoying the benefits of an e-home.

This all-in-one book explains how to:

- Plan and design a home network
- Be an intelligent consumer of home networking products and services
- Share resources, including an Internet connection, files, printers, videos, and images
- Secure, maintain, and troubleshoot your home network
- Set up digital entertainment features, VoIP telephoning, video surveillance, and telework via VPN

Dr. Larry Long, author of more than 50 computer books including *Personal Computing Demystified*, had a home network 15 years before anyone used the term "home networking".

You can m0ore effortlessly to read this book from your smart phone. The price is not to cover but this book offers high quality.

Candace Arroyo:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some publication, they are complained. Just tiny students that has reading's heart or real their interest. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful images on there. Yeah, it is being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Home Networking Demystified can make you sense more interested to read.
