## Mapping Strategic Knowledge

This book outlines a number of different tools for mapping strategic knowledge, and thus making knowledge more accessible. Anne Sigismund Huff and Mark Jenkins have brought leading academics together in this work:

- to provide informed analysis and theory
- to illustrate the contribution of knowledge mapping to central issues in strategy and organization theory
- to consider the contribution of these studies to management practice
- to address practical theoretic and methodological limitations of these tools, including several software tools now available to facilitate mapping.

Each section of the book provides a table which charts the chapters' main contents, key findings and implications for knowledge management. An annotated bibliography is provided at the end of the book as a resource for readers who may wish to become more familiar with relevant and existing literature in this area.

**Mapping Strategic Knowledge** is relevant to those interested in knowledge management, primarily academics and consultants in the area of strategic management, but also academics in the area of organization theory.
