## The Atlas of U.S. and Canadian Environmental History

This visually dynamic historical atlas chronologically covers American environmental history through the use of four-color maps, photos, and diagrams, and in written entries from well known scholars.

Organized into seven categories, each chapter covers: agriculture \* wildlife and forestry \* land use and management \* technology and industry \* pollution and human health \* human habitats \* and ideology and politics.

With valuable reference aids--including bibliographies, sources for further research, an extensive index, and newly designed maps--this is an indispensable tool for students and educators alike.

For a detailed contents, a generous selection of sample articles, and more, visit the website *Atlas of US and Canadian Environmental History* website.

Also includes 46 color maps.
