Beta Decay for Pedestrians (Dover Books on Physics) Harry J. Lipkin

The "pedestrian approach" was developed to describe some essentially simple experimental results and their theoretical implications in plain language. In this graduate-level text, Harry J. Lipkin presents simply, but without oversimplification, the aspects of beta decay that can be understood without reference to the formal theory; that is, the reactions that follow directly from conservation laws and elementary quantum mechanics. The pedestrian treatment is neither a substitute for a complete treatment nor a watered-down version. Its derivation of results obtainable without the formal theory makes these results more understandable and less mysterious to those who have neither the time nor the inclination to master the details of the theory. On the other hand, those already acquainted with the formal theory will find in the pedestrian treatment a clear distinction between results dependent on the specific assumptions underlying the formal theory and those independent of these assumptions, which follow from simple general principles. Since peculiar experimental results are an ever-present possibility, it is always useful to have a simple method of evaluating challenges to theoretical assumptions or approximations.

From reader reviews:

Theodore Rios:

Book is definitely written, printed, or created for everything. You can recognize everything you want by a book. Book has a different type. As it is known to us that book is important factor to bring us around the world. Adjacent to that you can your reading skill was fluently. A guide Beta Decay for Pedestrians (Dover Books on Physics) will make you to end up being smarter. You can feel considerably more confidence if you can know about almost everything. But some of you think that will open or reading a new book make you bored. It isn't make you fun. Why they may be thought like that? Have you seeking best book or ideal book with you?

Benjamin White:

A lot of people always spent all their free time to vacation as well as go to the outside with them family members or their friend. Do you realize? Many a lot of people spent they will free time just watching TV, or perhaps playing video games all day long. In order to try to find a new activity that is look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book that you read you can spent all day every day to reading a publication. The book Beta Decay for Pedestrians (Dover Books on Physics) it doesn't matter what good to read. There are a lot of people that recommended this book. These were enjoying reading this book. Should you did not have enough space to develop this book you can buy often the e-book. You can m0ore effortlessly to read this book through your smart phone. The price is not to cover but this book offers high quality.

Linda Matthews:

Reading a book for being new life style in this season; every people loves to study a book. When you go through a book you can get a lot of benefit. When you read books, you can improve your knowledge, simply because book has a lot of information into it. The information that you will get depend on what types of book that you have read. If you want to get information about your analysis, you can read education books, but if you act like you want to entertain yourself read a fiction books, such us novel, comics, in addition to soon. The Beta Decay for Pedestrians (Dover Books on Physics) provide you with a new experience in looking at a book.

Joseph Lee:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many problem for the book? But just about any people feel that they enjoy for reading. Some people likes studying, not only science book but novel and Beta Decay for Pedestrians (Dover Books on Physics) as well as others sources were given expertise for you. After you know how the great a book, you feel wish to read more and more. Science guide was created for teacher as well as students especially. Those books are helping them to add their knowledge. In additional case, beside science publication, any other book likes

Beta Decay for Pedestrians (Dover Books on Physics) to make your spare time considerably more colorful.
Many types of book like here.
