Synthetic Aperture Radar Signal Processing with MATLAB Algorithms

Mehrdad Soumekh

Synthetic Aperture Radar Signal Processing with MATLAB Algorithms Mehrdad Soumekh

An up-to-date analysis of the SAR wavefront reconstruction signal theory and its digital implementation. With the advent of fast computing and digital information processing techniques, synthetic aperture radar (SAR) technology has become both more powerful and more accurate. Synthetic Aperture Radar Signal Processing with MATLAB Algorithms addresses these recent developments, providing a complete, up-to-date analysis of SAR and its associated digital signal processing algorithms. This book introduces the wavefront reconstruction signal theory that underlies the best SAR imaging methods and provides clear guidelines to system design, implementation, and applications in diverse areas—from airborne reconnaissance to topographic imaging of ocean floors to surveillance and air traffic control to medical imaging techniques, and numerous others. Enabling professionals in radar signal and image processing to use synthetic aperture technology to its fullest potential, this work:

- * Includes M-files to supplement this book that can be retrieved from The MathWorks anonymous FTP server at <ftp://ftp.mathworks.com/pub/books/soumekh>
- * Provides practical examples and results from real SAR, ISAR, and CSAR databases
- * Outlines unique properties of the SAR signal that cannot be found in other information processing systems
- * Examines spotlight SAR, stripmap SAR, circular SAR, and monopulse SAR modalities
- * Discusses classical SAR processing issues such as motion compensation and radar calibration

From reader reviews:

Antonia Wagner:

Book is actually written, printed, or descriptive for everything. You can realize everything you want by a reserve. Book has a different type. As you may know that book is important thing to bring us around the world. Alongside that you can your reading skill was fluently. A publication Synthetic Aperture Radar Signal Processing with MATLAB Algorithms will make you to always be smarter. You can feel a lot more confidence if you can know about every thing. But some of you think that open or reading a book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you looking for best book or ideal book with you?

Bethany Hall:

A lot of people always spent their particular free time to vacation or go to the outside with them loved ones or their friend. Were you aware? Many a lot of people spent they free time just watching TV, or even playing video games all day long. If you need to try to find a new activity that is look different you can read the book. It is really fun for you. If you enjoy the book you read you can spent all day every day to reading a guide. The book Synthetic Aperture Radar Signal Processing with MATLAB Algorithms it is extremely good to read. There are a lot of people who recommended this book. They were enjoying reading this book. Should you did not have enough space to create this book you can buy the actual e-book. You can m0ore simply to read this book through your smart phone. The price is not to cover but this book offers high quality.

Diana Chung:

Why? Because this Synthetic Aperture Radar Signal Processing with MATLAB Algorithms is an unordinary book that the inside of the guide waiting for you to snap that but latter it will jolt you with the secret it inside. Reading this book next to it was fantastic author who else write the book in such amazing way makes the content inside easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you because of not hesitating having this ever again or you going to regret it. This excellent book will give you a lot of gains than the other book have such as help improving your skill and your critical thinking method. So , still want to hold up having that book? If I were you I will go to the guide store hurriedly.

Bryan Perry:

You may spend your free time to learn this book this publication. This Synthetic Aperture Radar Signal Processing with MATLAB Algorithms is simple bringing you can read it in the park your car, in the beach, train in addition to soon. If you did not have much space to bring the actual printed book, you can buy the actual e-book. It is make you quicker to read it. You can save the particular book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
