The Natural History of Creation: Biblical Evolutionism and the Return of Natural Theology

M. Corey

The Natural History of Creation: Biblical Evolutionism and the Return of Natural Theology M. Corey
The Natural History of Creation is the third and final installment in M.A. Corey's natural theology series. This remarkable trilogy—the first of its kind in this century—has worked in tandem with the findings of modern science to help spearhead the rebirth of the natural theology movement around the world. Nowhere will the reader find a more thorough description of the many breathtaking parallels between our modern scientific picture of the creation of the universe and the poetic description of the creation in Genesis One. Contents: The Scientific Accuracy of Genesis One; The Rise of Humanity; Physical Anthropology and Intelligent Design; God and the Nature of Time; Morality and Evolution; Human Nature and the Divine Image; Genesis and Moderate Anthropocentrism; A Self-Created Universe?; Frank Tipler's Omega Point Theory; Divine Action and the Role of Natural Processes; A Contrived World; Evolution and the Nature of the Miraculous; Is Life an Accident?; On the Validity of Natural Theology; A Scientific Interpretation of the Divine Nature; Epilogue: Towards a Genuine Religious Ecology.
