"The Investment Answer" asks readers to make five basic but key decisions to stack the investment odds in their favor. The advice is simple, easy-to-follow and effective, and can lead to a more profitable portfolio for every investor. Specifically: Should I invest on my own or seek help from an investment professional? How should I allocate my investments among stocks, bonds, and cash? Which specific asset classes within these broad categories should I include in my portfolio? Should I take an actively managed approach to investing, or follow a passive alternative? When should I sell assets and when should I buy more?
