This practical, reader-friendly textbook for preservice and in-service early childhood education and early literacy courses provides "how-to-do-it" instructions for promoting emergent literacy in reading, writing, and arithmetic from preschool into the primary grades. *Early 3 Rs* answers the question: "What can I SAY and DO to give each child the best possible start on the 3 Rs?"

With the strategies and materials in this book, a teacher can give personalized direct instruction in the 3 Rs to a beginner, in just a few minutes a day. The early chapters tell how to prepare a young child for reading, writing, and arithmetic. Subsequent chapters show how to give a beginner an early start on learning the 3 Rs. All strategies begin with the oral approach (from phonemic awareness to "arithme-talk") and then progress to print that is personally meaningful to a young child. *Early 3 Rs*:

- \* Includes *arithmetic* as a component of early literacy.
- \* Gives developmentally appropriate methods for *direct* teaching of the 3 Rs.
- \* Provides *scripts* of what the teacher can say to promote early learning.
- \* Helps education students in *field-based classes* offer personalized instruction.

*Early 3 Rs* is written to be very reader friendly: the approach is intentionally eclectic; the writing deliberately avoids heavy theory; the goal is to provide an easy-to-use, highly practical and accessible guide for those who work in early childhood education settings.
