**Quality Financial Reporting** Paul Miller

**A no-holds-barred look at the shortcomings in today's financial reporting standards with a prescriptive program for change**

Financial reports today have become hopelessly complex, and impossible for investors and other capital markets professionals to understand. This hurts everyone involved.

*Quality Financial Reporting* outlines the rules for QFR, a financial reporting revolution in which essential figures are reported clearly, truthfully, and in a language that everyone can understand.

*Quality Financial Reporting* is groundbreaking in its theory, comprehensive in its presentation, and destined to become required reading for accountants and investors alike. A long-overdue recipe for change, it provides readers with:

- Strategies and techniques for adopting a QFR standard
- Relevant empirical research that supports QFR
- End-of-chapter evaluation checklists and questions

"Accounting is the language of business. In recent years, too often language has been distorted to the point of becoming unintelligible. This book is a step toward restoring its usefulness."

Warren Buffet

**Paul B. W. Miller** is a professor of accounting at the University of Colorado at Colorado Springs.

**Paul R. Bahnson** is an associate professor of accounting at Boise State University.
