The Future of Extended Deterrence

The Future of Extended Deterrence

Are NATO's mutual security commitments strong enough today to deter all adversaries? Is the nuclear umbrella as credible as it was during the Cold War? Backed by the full range of US and allied military capabilities, NATO's mutual defense treaty has been enormously successful, but today's commitments are strained by military budget cuts and antinuclear sentiment. The United States has also shifted its focus away from European security during the wars in Afghanistan and Iraq and more recently with the Asia rebalance. Will a resurgent Russia change this?

The Future of Extended Deterrence brings together experts and scholars from the policy and academic worlds to provide a theoretically rich and detailed analysis of post-Cold War nuclear weapons policy, nuclear deterrence, alliance commitments, nonproliferation, and missile defense in NATO but with implications far beyond. The contributors analyze not only American policy and ideas but also the ways NATO members interpret their own continued political and strategic role in the alliance.

In-depth and multifaceted, *The Future of Extended Deterrence* is an essential resource for policy practitioners and scholars of nuclear deterrence, arms control, missile defense, and the NATO alliance.

This specific book can be one of a step for you to get success. This book offer you information that perhaps your friend doesn't learn, by knowing more than various other make you to be great people. So , why hesitate? We need to have The Future of Extended Deterrence.

Thomas West:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library or make summary for some e-book, they are complained. Just small students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that reading is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this The Future of Extended Deterrence can make you sense more interested to read.
