## **Un clone in valigia (Italian Edition)** Adriana Albini

Una ricercatrice italiana, emigra negli Stati Uniti per poter diventare un biologo molecolare; ritornerà dopo tre anni per sviluppare il suo progetto scientifico e umano.

Quando parte per gli Stati Uniti, Alessandra, ricercatrice, porta con sé solo qualche indumento, una coperta, come Linus, e la speranza di diventare un biologo molecolare. Tra supermercati senza confini e scarafaggi altrettanto giganti, automobili di fortuna e baseball improvvisato, trova pian piano se stessa, l'amicizia, una famiglia, e la realizzazione del suo sogno scientifico. Isolerà un "clone", il DNA di una proteina nuova, forse importante per un tumore infantile. Dopo tre anni in USA deciderà di far rientro in Italia, portandosi dietro anche il suo "clone". Il gene in valigia sarà al tempo stesso il suo portafortuna e la base per un progetto scientifico e umano da completare in patria.
