Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment

Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment

Three decades into the HIV pandemic, the goals remain clear: reduce the number of infections, improve the health outcomes of those who are infected, and eliminate disparities in care. And one observation continues to gain credence: families are a powerful resource in preventing, adapting to, and coping with HIV.

Recognizing their complex role as educators, mentors, and caregivers, Family and HIV/AIDS assembles a wealth of findings from successful prevention and intervention strategies and provides models for translating evidence into effective real-world practice.

Chapters spotlight the differing roles of mothers and fathers in prevention efforts, clarify the need for family/community collaborations, and examine core issues of culture, ethnicity, gender, and diagnosis (e.g., minority families, adolescents with psychological disorders). Throughout, risk reduction and health promotion are shown as a viable public health strategy

A reference with considerable utility across the health, mental health, and related disciplines, Family and HIV/AIDS will be a go-to resource for practitioners working with families, researchers studying at-risk populations, administrators seeking to create new (or evaluate existing) prevention and care programs, and policymakers involved in funding such programs.

From reader reviews:

Odessa Currie:

What do you think about book? It is just for students since they're still students or this for all people in the world, exactly what the best subject for that? Simply you can be answered for that question above. Every person has various personality and hobby for every other. Don't to be pushed someone or something that they don't desire do that. You must know how great and important the book Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment. All type of book would you see on many solutions. You can look for the internet methods or other social media.

Nancy Tandy:

Spent a free a chance to be fun activity to try and do! A lot of people spent their sparetime with their family, or their friends. Usually they carrying out activity like watching television, likely to beach, or picnic from the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Could possibly be reading a book is usually option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to test look for book, may be the reserve untitled Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment can be great book to read. May be it can be best activity to you.

Madeline Edwards:

Are you kind of busy person, only have 10 or maybe 15 minute in your morning to upgrading your mind expertise or thinking skill also analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short space of time to read it because pretty much everything time you only find guide that need more time to be examine. Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment can be your answer as it can be read by you actually who have those short extra time problems.

Clyde Miller:

As a college student exactly feel bored to help reading. If their teacher asked them to go to the library or make summary for some reserve, they are complained. Just very little students that has reading's internal or real their interest. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment can make you feel more interested to read.
