Roots of Modern Technology

Siegfried Wendt

Roots of Modern Technology Siegfried Wendt

If the ancient Greek philosopher Socrates came to life again today, he would wonder how airplanes fly and light bulbs glow, but not wonder much about the world's political and social changes that took place since his time. The author puts himself in the position of explaining to Socrates the technological fundamentals behind all our modern conveniences. Since he takes Socrates seriously, the author accepts the challenge of introducing the relevant mathematical and technical concepts, and he does so in a remarkably easy-to-understand and accurate way. The result is a comprehensive overview of the elements of our technical civilization, an overview properly based upon elementary but solid mathematical and scientific principles. Everyone with an inclination toward science and technology can take advantage of the clear structure, the comprehensive presentation and the many wonderfully-illustrated examples of the book.

From reader reviews:

Dolores Mika:

Book will be written, printed, or illustrated for everything. You can know everything you want by a e-book. Book has a different type. As it is known to us that book is important thing to bring us around the world. Close to that you can your reading proficiency was fluently. A e-book Roots of Modern Technology will make you to be smarter. You can feel a lot more confidence if you can know about anything. But some of you think that open or reading the book make you bored. It's not make you fun. Why they are often thought like that? Have you in search of best book or ideal book with you?

Ruth Ford:

What do you about book? It is not important to you? Or just adding material when you need something to explain what the ones you have problem? How about your spare time? Or are you busy person? If you don't have spare time to complete others business, it is gives you the sense of being bored faster. And you have time? What did you do? Everyone has many questions above. The doctor has to answer that question since just their can do this. It said that about guide. Book is familiar in each person. Yes, it is correct. Because start from on guardería until university need this kind of Roots of Modern Technology to read.

Thomas Rojas:

This book untitled Roots of Modern Technology to be one of several books which best seller in this year, this is because when you read this reserve you can get a lot of benefit upon it. You will easily to buy this particular book in the book shop or you can order it by using online. The publisher on this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Cell phone. So there is no reason to your account to past this book from your list.

Tim Gonzalez:

This Roots of Modern Technology is great book for you because the content which can be full of information for you who have always deal with world and possess to make decision every minute. This kind of book reveal it info accurately using great arrange word or we can point out no rambling sentences included. So if you are read that hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but tricky core information with attractive delivering sentences. Having Roots of Modern Technology in your hand like getting the world in your arm, details in it is not ridiculous one particular. We can say that no publication that offer you world in ten or fifteen minute right but this book already do that. So , this is certainly good reading book. Hey Mr. and Mrs. busy do you still doubt that?
