Why Don't Jumbo Jets Flap Their Wings? David E. Alexander

What do a bumble bee and a 747 jet have in common? It's not a trick question. The fact is they have quite a lot in common. They both have wings. They both fly. And they're both ideally suited to it. They just do it differently.

Why Don't Jumbo Jets Flap Their Wings? offers a fascinating explanation of how nature and human engineers each arrived at powered flight. What emerges is a highly readable account of two very different approaches to solving the same fundamental problems of moving through the air, including lift, thrust, turning, and landing. The book traces the slow and deliberate evolutionary process of animal flight—in birds, bats, and insects—over millions of years and compares it to the directed efforts of human beings to create the aircraft over the course of a single century.

Among the many questions the book answers:

- Why are wings necessary for flight?
- How do different wings fly differently?
- When did flight evolve in animals?
- What vision, knowledge, and technology was needed before humans could learn to fly?
- Why are animals and aircrafts perfectly suited to the kind of flying they do?

David E. Alexander first describes the basic properties of wings before launching into the diverse challenges of flight and the concepts of flight aerodynamics and control to present an integrated view that shows both why birds have historically had little influence on aeronautical engineering and exciting new areas of technology where engineers are successfully borrowing ideas from animals.

From reader reviews:

Debbie Jackson:

Information is provisions for individuals to get better life, information currently can get by anyone in everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider any time those information which is within the former life are challenging to be find than now is taking seriously which one would work to believe or which one typically the resource are convinced. If you get the unstable resource then you buy it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Why Don't Jumbo Jets Flap Their Wings? as the daily resource information.

Jennifer Nava:

People live in this new day of lifestyle always make an effort to and must have the free time or they will get lot of stress from both day to day life and work. So , once we ask do people have extra time, we will say absolutely indeed. People is human not really a robot. Then we question again, what kind of activity are there when the spare time coming to you actually of course your answer will probably unlimited right. Then do you ever try this one, reading books. It can be your alternative within spending your spare time, typically the book you have read is Why Don't Jumbo Jets Flap Their Wings?.

Lesley Dwyer:

It is possible to spend your free time to see this book this reserve. This Why Don't Jumbo Jets Flap Their Wings? is simple to deliver you can read it in the park your car, in the beach, train along with soon. If you did not possess much space to bring the printed book, you can buy typically the e-book. It is make you better to read it. You can save the particular book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Johnny Sutton:

That publication can make you to feel relax. This book Why Don't Jumbo Jets Flap Their Wings? was bright colored and of course has pictures on the website. As we know that book Why Don't Jumbo Jets Flap Their Wings? has many kinds or style. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and believe that you are the character on there. Therefore not at all of book are make you bored, any it makes you feel happy, fun and chill out. Try to choose the best book to suit your needs and try to like reading that will.
