A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition)

Simon Rogers, Mark Girolami

A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition) Simon Rogers, Mark Girolami

A First Course in Machine Learning covers the core mathematical and statistical techniques needed to understand some of the most popular machine learning algorithms. The algorithms presented span the main problem areas within machine learning: classification, clustering and projection. The text gives detailed descriptions and derivations for a small number of algorithms rather than cover many algorithms in less detail.

Referenced throughout the text and available on a supporting website (<http://bit.ly/firstcourseml>), an extensive collection of MATLAB[®]/Octave scripts enables students to recreate plots that appear in the book and investigate changing model specifications and parameter values. By experimenting with the various algorithms and concepts, students see how an abstract set of equations can be used to solve real problems.

Requiring minimal mathematical prerequisites, the classroom-tested material in this text offers a concise, accessible introduction to machine learning. It provides students with the knowledge and confidence to explore the machine learning literature and research specific methods in more detail.

From reader reviews:

Nathan Ramsey:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite reserve and reading a reserve. Beside you can solve your condition; you can add your knowledge by the publication entitled A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition). Try to stumble through book A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition) as your close friend. It means that it can to be your friend when you experience alone and beside that of course make you smarter than previously. Yeah, it is very fortunated for you personally. The book makes you much more confidence because you can know every thing by the book. So , we should make new experience in addition to knowledge with this book.

Alan Williams:

Have you spare time for just a day? What do you do when you have considerably more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a go walking, shopping, or went to the Mall. How about open or even read a book titled A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition)? Maybe it is being best activity for you. You know beside you can spend your time together with your favorite's book, you can better than before. Do you agree with their opinion or you have various other opinion?

Louis Hudson:

Many people spending their time frame by playing outside using friends, fun activity using family or just watching TV all day long. You can have new activity to spend your whole day by reading a book. Ugh, you think reading a book can definitely hard because you have to use the book everywhere? It alright you can have the e-book, having everywhere you want in your Smartphone. Like A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition) which is having the e-book version. So , try out this book? Let's view.

Michael Hale:

A lot of guide has printed but it is unique. You can get it by web on social media. You can choose the most effective book for you, science, comic, novel, or whatever simply by searching from it. It is referred to as of book A First Course in Machine Learning (Chapman & Hall/Crc Machine Learning & Pattern Recognition). You can add your knowledge by it. Without making the printed book, it could add your knowledge and make you happier to read. It is most critical that, you must aware about book. It can bring you from one destination for a other place.
